

FULL STACK JAVA BROCHURE

About Glowlogics

Glowlogics is a **government-verified MSME and Startup India-recognized company offering ISO-certified internships. In partnership with Techfest, IIT Bombay, & E-cell Hyderabad** we are committed to fostering innovation and skill development, providing practical, industry-relevant expectation

Program Overview

Our Full Stack Java Development Program offers an in-depth learning experience covering both front-end and back-end technologies using Java. this program equips students with practical skills through hands-on projects, enabling them to build real-world web applications with confidence.

What is Full Stack Java?

Full Stack Java refers to the development of both the front-end (client-side) and back-end (server-side) components of web applications using Java technologies. A Full Stack Java Developer is proficient in the entire development process, from designing user interfaces to managing databases and server-side logic.

What You Will Learn:

Front-End Development:

- HTML5, CSS3, JavaScript, and React.js
- Responsive Design and User Interface (UI) Principles
- Integrating APIs and handling user interactions

Back-End Development:

- Core Java & Advanced Java Concepts
- Spring Boot Framework for Microservices
- RESTful Web Services and APIs
- Database Management (MySQL, MongoDB)

Full-Stack Projects:

- Building dynamic web applications from scratch
- Implementing authentication and authorization
- Version control with Git and GitHub
- Deploying applications on cloud platforms
